## Inspection Dept.

## Packing Dept.

## Fabric Warehouse

## Finished Products Warehouse

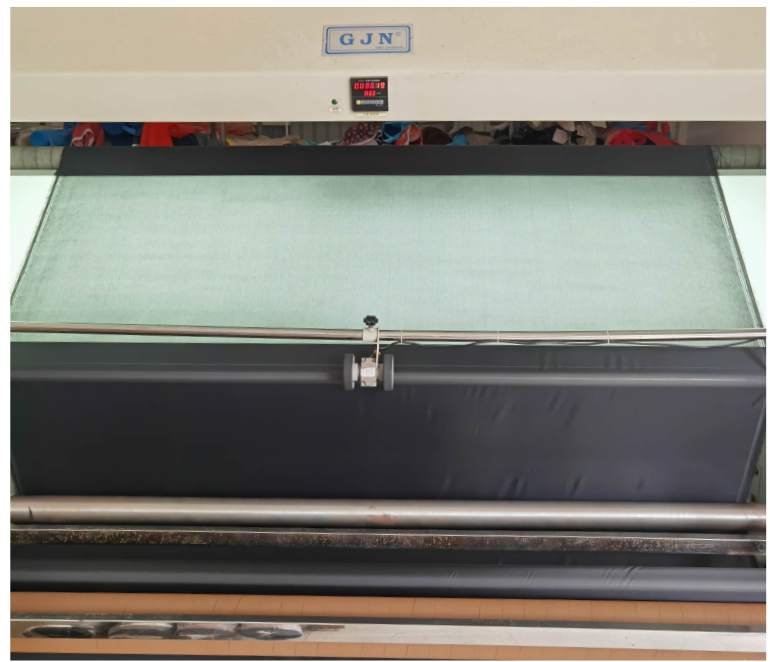

# HOW WE DO QUALITY CONTROL

## Raw material inspection

### Fabric Inspection

Before cutting, we conduct inspection for the fabric

## Frame and Handle inspection

# Process inspection

## Panels Inspection

## Canopy Inspection

## Needle Inspection

## Semifinished Goods Inspection

## Final inspection

After packing and before entering the warehouse, we have equipped with special quality inspectors to carry out strict inspection of products quality. Only qualified products can enter our warehouse. Furthermore we have set final inspectors to inspect the quality again before the goods leave our factory.

We always put inspection on whatever products out of our factory. We know once the products with quality defects shipped to the destination, both of us will be in great trouble. We could solve the problem, find the defects and exchange the items easily, with the minimum cost if we inspect every outgoing shipment, so why not? Once the products with quality defects are sent to our customers, we need to spend 10 times greater cost to solve the problem.

# CERTIFICATES & TEST REPORTERS

We have BSCI certificate and our factory is certified by HEMA, OUCHAN. Most of our products have been tested by the third parties like ITS, TUV.
